## SUBJECT INDEX

Canadian Journal of Plant Science, Volume 73, 1993

- AC Reed soft white spring wheat, 531
- Acclimation  
adaptation et croissance d'arbres  
ornementaux, 557  
in vitro hardening of red raspberry, 1105
- Achene oil content  
heterosis and prediction of achene oil  
content, 737
- Acid detergent fibre  
pulse-cereal mixtures for forage, 437
- Adjuvant  
adjuvants with tralkoxydim, 1275
- ADN polymorphe amplifié au hasard  
identification de cultivars de framboise, 1115
- Adventitious root buds  
evaluating long-term Canada thistle control,  
369
- Agropyron desertorum*  
carbon isotopes discrimination in crested  
wheatgrass, 1027
- Alaska  
legume crops in the subarctic, 1037
- Alfalfa  
effect of tillage on nitrogen response in corn  
after alfalfa, 73  
evaluation of embryogenic alfalfa, 131  
soluble-sugars in *Fusarium*-infected alfalfa,  
647
- Allopolyploidy  
lowbush blueberry may be autopolyploid,  
889
- Alternaria* black pod  
factors affecting *Alternaria* black pod bean,  
315
- Additive main effect and multiplicative  
interaction  
evaluation of locations for testing dry bean  
cultivars, 985
- Ancymidol  
ethephon and ancymidol on Easter lily, 879
- Anther culture  
anther culture of spring wheat, 777
- Anthium strumarium*  
response of *Anthium strumarium* to bentazon,  
351
- Anthocyanin  
postharvest changes in stored strawberries, 541
- Anthracnose  
fungicide effects on tomato, 1209
- Antibiosis  
maize root hydroxamates and antibiosis in  
*Diabrotica*, 359
- Antivitrifying agent  
prevention of vitrification by antivitrifying  
agents, 231
- Apple  
apple orchard training systems, 237  
orchard performance of micropropagated  
fruit trees, 847  
paclobutrazol sprays of young apple trees,  
1127  
postharvest disorders, diseases and mineral  
concentration of apples, 223  
reappraisal of seasonal apple fruit growth,  
549
- Arbustes  
adaptation et croissance d'arbustes  
ornementaux, 1137
- Area index  
growth analysis of oilseed rape and brown  
mustard, 795
- Artificial seed  
evaluation of embryogenic alfalfa, 131
- Asparagus officinalis*  
storage potential of asparagus cultivars, 601
- Aspirated air samplers  
reducing drift with shields, 1261
- Assimilation nette  
photosynthèse de *Primula obconica*, 1155
- Available nitrogen  
time trends in long-term wheat trials, 83
- Available water  
flex-cropping in S.W. Saskatchewan, 749  
time trends in long-term wheat trials, 83
- Avena sativa* L. (See Oat)
- Azote  
maïs et cultures intercalaires, 37
- Backcross  
evaluation of embryogenic alfalfa, 131
- Barley  
AC Lacombe barley, 1087  
Ac Stephen barley, 1079  
genotype  $\times$  environment interaction for two-  
row barley, 939  
Iona barley, 1083  
tissue culture response of 10 barley  
genotypes, 171  
wheat and barley tolerance to common root  
rot, 1177

- Bean**  
bean germination, 697  
economic analysis of bean/wheat rotation systems, 405  
evaluation of locations for testing dry bean cultivars, 985  
factors affecting *Alternaria* black pod bean, 315  
interracial hybridization in breeding common bean, 785  
non-fixing mutants of common bean, 977  
root-rot resistance in common bean, 365  
white mold in bean plant type, 265  
wild mustard competition with beans, 1309
- Bentazon**  
response of *anthium strumarium* to bentazon, 351
- Bipolaris oryzae**  
hydroponic culture of wild rice, 969
- Blackleg**  
screening for blackleg resistance, 1199
- Blé**  
tolerance a la jaunisse nanisante de l'orge, 1225
- Boron nutrition**  
boron distribution in broccoli, 587
- Brassica**  
boron distribution in broccoli, 587  
drought stress in *Brassica*, 525  
glucosinolate composition of broccoli, 885
- Brassica campestris**  
fertility management in canola, 651
- Brassica carinata**  
cream petal inheritance of Ethiopian mustard, 1075
- Brassica juncea**  
growth analysis of oilseed rape and brown mustard, 795
- Brassica napus**  
fertility management in canola, 651  
growth analysis of oilseed rape and brown mustard, 795  
screening for blackleg resistance, 1199  
temperature effects on seed color, 383
- Bread wheat**  
CDC Teal hard red spring wheat, 193
- Breadmaking quality**  
SDS-sedimentation and wheat quality, 995
- Broccoli**  
boron distribution in broccoli, 587  
glucosinolate composition of broccoli, 885
- Calcium**  
Zn-P effects on tissue nutrient content, 17
- Canola**  
antixenosis to flea beetles in inbred lines of rape, 615

barley cultivar response to management and soil type, 927  
pulse-cereal mixtures for forage, 437
- Prunus persica* (L.) Batsch (See Peach)
- Pseudo-linkage  
linkages in lentil, 917
- Pulse-cereal mixtures  
pulse-cereal mixtures for forage, 437
- Quackgrass  
soybean, weed CO<sub>2</sub> and temperature response, 1249
- Quackgrass control  
initial quackgrass density and control with glyphosate, 1283
- Quackgrass density  
initial quackgrass density and control with glyphosate, 1283
- Qualité  
morphologie et qualité chez le fléole des prés, 803
- Race Durango  
interracial hybridization in breeding common bean, 785
- Rain  
factors affecting *Alternaria* black pod bean, 315
- Rape (summer)  
AC Elect summer rape, 181  
AC Excel summer rape, 183  
Profit summer rape, 187  
sporophytic incompatibility in summer rape, 829  
Tribute summer rape, 189
- Rapeseed  
ochratoxin production on wheat and rapeseed, 163  
response of oilseed *Brassica* to ozone, 1077
- Raspberry  
in vitro hardening of red raspberry, 1105
- Rectangular hyperbola  
wild mustard competition with beans, 1309
- Red clover  
dinitrogen fixation and transfer by red clover, 1047
- Redroot pigweed  
digestibility of annual weeds, 1305  
soybean, weed CO<sub>2</sub> and temperature response, 1249
- Regeneration  
tissue culture response of 10 barley genotypes, 171
- Relative growth rate  
reappraisal of seasonal apple fruit growth, 549
- Respiration  
storage potential of asparagus cultivars, 601
- Residual N  
effects of legumes on forage-corn production, 495
- Residue  
residues of 2,4-D and dicamba in wheat, 345
- Resistance  
antixenosis to flea beetles in inbred lines of rape, 615  
nematodes on ginseng and kiwi, 907
- Retranslocation  
boron distribution in broccoli, 587
- Rhizobium meliloti*  
inoculant storage-temperature effects, 101
- Rhizobium vulgaris* strains  
non-fixing mutants of common bean, 977
- Rhizome  
initial quackgrass density and control with glyphosate, 1283
- Rice (wild)  
hydroponic culture of wild rice, 969
- Riskiness  
flex-cropping in S.W. Saskatchewan, 749
- Root  
evaluating long-term Canada thistle control, 369
- Root rot  
effect of salinity on common root rot in wheat, 323  
root-rot resistance in common bean, 365  
wheat and barley tolerance to common root rot, 1177
- Root-lesion  
nematodes on ginseng and kiwi, 907
- Rootstocks  
orchard performance of micropropagated fruit trees, 847
- Rotation effects  
effects of legumes on forage-corn production, 495
- Row covers  
planting dates and row covers for muskmelons, 281
- Row spacing  
canopy microclimate and septoria in winter wheat, 331
- Row width  
white mold in bean plant type, 265
- Rubus idaeus* L. (See Raspberry)
- Rust  
AC Hunter oat, 1099

- Rusticité  
 adaptation et croissance d'arbres  
   ornementaux, 557  
 adaptation et croissance d'arbustes  
   ornementaux, 1137
- Rutabaga  
 powdery mildew-resistant UG3 and UG4  
   rutabaga germplasm, 301
- Rye  
 variability for grain viscosity in rye, 1
- Salal  
*Gaultheria shallon* Pursh, 1233
- Salinity  
 effect of salinity on common root rot in  
   wheat, 323  
 fall and spring seeding of kochia on saline  
   soil, 1055
- Sclerotinia stem rot  
 soybean response to sclerotinia stem rot,  
   1169
- Sclerotinia sclerotiorum  
 white mold in bean plant type, 265
- Secale cereale L. (See Rye)
- Seed color  
 assessing seed coat color of wheat by  
   NIR/VIS, 535  
 swath and desiccation of flax, 1001  
 temperature effects on seed color, 383
- Seed discoloration  
 discoloration of flax seed, 155
- Seed hull  
 seed hull content in field pea, 611
- Seed persistence  
 modeling wild mustard seed survival, 637
- Seed production  
 seed production of tall fescue, 123
- Seed quality  
 swath and desiccation of flax, 397
- Seed rate  
 canopy microclimate and septoria in winter  
   wheat, 331  
 seed rate for winter wheat, 1071
- Seed surface disinfection  
 seed surface disinfection apparatus, 159
- Seed survival  
 modeling wild mustard seed survival, 637
- Seed test weight  
 wild mustard competition with beans, 1309
- Seed weathering  
 discoloration of flax seed, 155
- Seed yield  
 interracial hybridization in breeding common  
   bean, 785
- Seeding dates  
 fall and spring seeding of kochia on saline  
   soil, 1055
- Seeding rates  
 response of Wapiti triticale to seeding rate,  
   65
- Self-rooting  
 orchard performance of micropropagated  
   fruit trees, 847
- Semi-dwarf  
 common bunt susceptibility and resistance in  
   Canadian spring wheats, 1217  
 root and shoot in wheat lines differing in  
   height, 679
- Septoria sp.  
 canopy microclimate and septoria in winter  
   wheat, 331
- Shelf-life  
 storage potential of asparagus cultivars, 601
- Shoot doubling time  
 micropropagation of *Pelargonium* ×  
   *hortorum*, 871
- Sicklepot  
 soybean, weed CO<sub>2</sub> and temperature  
   response, 1249
- Silage  
 pulse-cereal mixtures for forage, 437
- Silicon  
 hydroponic culture of wild rice, 969
- Silwet L-77  
 fairy ring control, 1189
- Sinapis arvensis  
 modeling wild mustard seed survival, 637
- Six-rowed barley  
 AC Stephen barley, 1079
- Slender spindle  
 apple orchard training systems, 237
- Smut  
 AC Hunter oat, 1099
- Snow cover  
 irrigation and ground cover affect soil  
   temperature, 857
- Sodium dodecyl sulphate sedimentation  
 SDS-sedimentation and wheat quality, 995
- Soil moisture  
 annual-legume green manures in  
   Saskatchewan, 139
- Soil type  
 barley cultivar response to management and  
   soil type, 927
- Solar radiation  
 estimating global solar radiation, 509
- Soluble solids  
 tomato solids content, 273

- Somatic embryogenesis  
  evaluation of embryogenic alfalfa, 131
- Sorghum bicolor*  
  epicuticular wax determination on intact leaves, 521
- Sour cherry  
  orchard performance of micropropagated fruit trees, 847
- Soybean  
  Brock soybean, 175  
  corn production and N-fertilizer replacement values of legumes, 477  
  effects of legumes on forage-corn production, 495  
  forage-corn mineral concentration and uptake, 461  
  KG 93 soybean, 177  
  mixed weeds interference effects on soybean, 1293  
  RCAT Angora soybean, 179  
  RCAT Tabby soybean, 1103  
  soybean response to sclerotinia stem rot, 1169  
  soybean, weed CO<sub>2</sub> and temperature response, 1249
- Specific root length  
  seedling growth of Russian wildrye, 1009
- Sporophytic self-incompatibility  
  sporophytic incompatibility in summer rape, 829
- Spring cereals  
  production potential of early seeded winter cereals, 691
- Stability analysis  
  common bunt susceptibility and resistance in Canadian spring wheats, 1217  
  timothy cultivar by management interactions, 445
- Stomata  
  excised-leaf water status evaluation in winter wheat, 55  
  in vitro hardening of red raspberry, 1105  
  leaf water loss and stomata in wheat, 93  
  variation in stomatal frequency and size in wheat, 671
- Storage  
  postharvest changes in stored strawberries, 541  
  storage of sunflower seeds, 303  
  storage potential of asparagus cultivars, 601
- Storage disorders  
  postharvest disorders, diseases and mineral concentrations of apples, 223
- Storage rots  
  postharvest disorders, diseases and mineral concentrations of apples, 223
- Strawberry  
  evaluation of hardiness of strawberry plants, 1123
- Stubble cropping  
  economics of tillage systems, 47
- Sugars  
  soluble-sugars in *Fusarium*-infected alfalfa, 647
- Sulphur  
  fertility management in canola, 651
- Sunflower  
  decortification of oilseed sunflower, 825  
  heterosis and prediction of achene oil content, 737
- Sunflower seed  
  storage of sunflower seeds, 303
- Supernodulation  
  non-fixing mutants of common bean, 977
- Surfactant content  
  adjuvants with tralkoxydim, 1275
- Swathing  
  swathing and desiccation of flax, 397, 1001
- Sweet cherry  
  orchard performance of micropropagated fruit trees, 847
- Tall fescue  
  AC Graze tall fescue, 843  
  seed production of tall fescue, 123
- Tangier flatpea  
  annual-legume green manures in Saskatchewan, 139
- Taux de transpiration  
  échanges gazeux de la tomate de serre, 577
- Temperature  
  bean germination, 697  
  inoculant storage-temperature effects, 101  
  temperature effects of timothy digestibility, 1017  
  temperature effects on seed color, 383
- Test weight  
  response of Wapiti triticale to seeding rate, 65
- Tetrasomic inheritance  
  lowbush blueberry may be autopolyploid, 889
- Tillage  
  economic analysis of bean/wheat rotation systems, 405  
  economics of tillage systems, 47  
  effect of tillage on nitrogen response in corn after alfalfa, 73
- Tiller removal  
  intraspike yield distribution, 721

- Tillering  
   seedling growth of Russian wildrye, 1009  
   seed rate for winter wheat, 1071  
 Tillering and flowering  
   tiller development and flowering, 569  
 Timothy  
   temperature effects of timothy digestibility, 1017  
   timothy cultivar by management interactions, 445  
 Tissue culture  
   in vitro hardening of red raspberry, 1105  
   tissue culture response of 10 barley genotypes, 171  
 Tolerance  
   wheat and barley tolerance to common root rot, 1177  
 Tomato  
   échanges gazeux de la tomate de serre, 577  
   fungicide effects on tomato, 1209  
   management of the K:N ratio in drip-irrigated tomatoes, 289  
   tomato solids content, 273  
   tomato yield-evapotranspiration relationship, 257  
 Total solids  
   tomato solids content, 273  
 Toughness  
   storage potential of asparagus cultivars, 601  
 Tralkoxydim  
   adjuvants with tralkoxydim, 1275  
 Transmissivity  
   estimating global solar radiation, 509  
 Transpiration  
   ventilation at different humidities in culture of geranium, 249  
 Trend  
   time trends in long-term wheat trials, 83  
 Triazine-tolerant  
   Tribute summer rape, 189  
 Trifluralin  
   effect on trifluralin on flax wilt, 893  
*Trifolium pratense*  
   dinitrogen fixation and transfer by red clover, 1047  
   maïs et cultures intercalaires, 37  
 Triticale  
   response of Wapiti triticale seeding rate, 65  
   tolerance a la jaunisse nanisante de l'orge, 1225  
   × *Triticosecale* (see Triticale)
